

Advancing Care Through Technology for Insulin-Requiring Patients with Diabetes

October 18-19, 2018

Barbara Davis Center for Diabetes at the University of Colorado Denver
1775 Aurora Court
Aurora, CO 80045

This two day diabetes professional education program utilizes a unique, hands on curriculum delivered in a participant-centered learning environment. Over 7,000 health care providers including doctors, nurse practitioners, physician assistants, certified diabetes educators and pharmacists have attended a Johnson & Johnson Diabetes Institute, LLC program in the United States. We are pleased to bring this program to Colorado.

Program Highlights:

- Challenges in Diabetes Management
- Emerging CGM Technologies for Diabetes Therapy
- Advanced Carb Counting, Role of Protein/Fat, and Technology Resources
- Future technology for MDI patients
- Simulation of life with diabetes
- Interactive patient cases and pattern management
- Patient Engagement and Challenges

Program Faculty:

- Satish Garg, MD
- Viral Shah, MD
- Christie Beatson, RD, CDE
- Liz Beck, RD, CDE
- Nichole Schneider, NP
- Jerry Meece, BPharm, FACA, FAADE, CDE

To Register or if you have questions, email info@jjdi.us

Please Note: Due to the interactive nature of this program, full participation on both days is required.

Certain state and federal laws require pharmaceutical, medical device and other companies to disclose expenditures provided to physicians and other healthcare professionals. The Johnson & Johnson Diabetes Institute, LLC may report information about such expenditures, including the value of the meals provided in connection with the program, as required by law. Once reported, such information may be publicly accessible.
